

# Vanity Box

Beauty Ateliers

Welcome to Vanity Box Skin Couture, a Boutique Hollywood Regency inspired salon where all your cosmetic, therapeutic and grooming needs are met at one sophisticated destination.

With over 13 years industry experience, internationally trained and qualified with ITEC, Suzey Luong's philosophy is to create bespoke sessions using a comprehensive selection of expert and results driven beauty, wellness and spa treatments. Each session is created just for you and can include anything from a Bespoke Facial, Bespoke Deep tissue massage, waxing tinting or even a luxury hot stone treatment in a chic and lavish environment.

Each indulgent session will commence with an in depth consultation with owner/operator Suzey or her talented team to create your Vanity Box bespoke treatment session.

## **BESPOKE FACIALS**

### **Welcome to our range of Vanity Box Bespoke Facials**

No single skincare product can meet all of your skincare needs, which is why, when you come to Vanity Box, Suzey will create a bespoke facial treatment that brings together the benefits of a combination of products.

We use a range of medical grade and organic facial skincare products made from a range of ingredients, from plant extracts and antioxidants to AHA and BHA acids. Each of these products has been designed to tackle specific skin concerns, as well as to boost your overall skin health, and can be layered with other facial products for maximum effectiveness and absorption.

Our intense rejuvenating, restorative and relaxing facials can dramatically improve the appearance of hyperpigmentation, acne, fine lines and wrinkles, redness and dryness. We have facial products for preventative treatment, for sensitive skin and to reverse some of the effects of sun damage. Even if your skin is in great health, a facial can give it a lovely, nourishing boost to keep it looking and feeling incredible.

## DERMAFRAC FACIAL

DermaFrac is a microdermabrasion, skin needling, hyaluronic acid infusion and LED treatment all rolled into one! Yes it is as amazing as it sounds! Vanity Box Beauty Ateliers is VERY excited to be offering this cutting edge treatment.

The treatment starts with a light microdermabrasion to slough off dead skin cells which gives the skin a fresh, bright look, then, using the DermaFrac, thousands of micro-channels are created on the surface of the skin, which allows skin-type specific topical products to be infused into the epidermal and dermal layers of the skin.

Why is this so effective? The needles are able to reach a deeper layer of tissue where major change is able to take place. Reaching this deeper level of tissue, amazing results are achieved in minimizing fine lines and wrinkles, reducing photo-damage and hyperpigmentation, diminishing scar tissue (acne or other), and adding moisture to dry and dehydrated skin.

To end the treatment your skin is treated with Red LED Light Therapy to sooth and speed up the healing process. Expect to feel minimal discomfort and no downtime after your treatment, too! For optimal results, it is recommend getting one treatment per month for six weeks.

### **DermaFrac™ can infuse:**

- Anti-aging peptides to stimulate collagen and elastin production
- Skin lighteners used to reduce melisma, hyperpigmentation, and sun damage
- Hyaluronic acid to hydrate and plump the skin
- Acne treatments to reduce oil and congestion in the skin.

Benefits include tighter, more firm skin. The needles create mico-wounds on the skin which triggers the body's natural healing response. This means our skin naturally starts to plump due to our body producing collagen and elastin.

## **FEATHER-TOUCH BROW TATTOO**

### **What is Feather-touch Brow Tattoo?**

Feather-touch Brow Tattoo (also known as 3D cosmetic tattooing, because the blend of different colours and natural strokes creates dimensionality – just like the real thing), involves a metal hand-tool with a cluster of fine needles, which is used to implant pigment into the skin to create life-like hair strokes and natural-looking eyebrows. Fine strokes are applied into the skin with pre-measured surgical dots to ensure symmetry.

### **Who can benefit from such a treatment?**

Persons who have over-plucked their eyebrow hair, have gaps or scars where the hair has not grown back, are suffering from Alopecia (hair loss), weak or light hair or who want a particular shape for their eyebrows.

### **Practicing at the Highest Standard**

With Suzey's qualification as a beauty therapist and training in the most modern eyebrow techniques including feathered, hair stroke and embroidery using the machine and the feather touch brow hand tool technique, she has extensive knowledge on dermal anatomy, physiology and microbiology, allowing her to practice at the highest standard.

### **Selecting the best colour and shape**

Prior to treatment Suzey will do a detailed consultation outline a brow shape and choose the most suitable colour. She will take into consideration the most appropriate shape and colour to suit your specific facial features, natural brow line, skin tone and hair colour.

### **Tattoo Pigments**

Quality tattoo pigments are used, which are based in safe and non-reactive ingredients, purposely designed for implantation into human skin. Suzey uses disposable needles and appropriate sterilization techniques, as required.

### **Pain Management**

Whilst undergoing this procedure, topical anesthetic is applied to minimise pain and discomfort.

### **Immediate Pigment Colour**

After your treatment the colour may appear darker for approximately 10-14 days. During this period the pigment intensity will fade significantly. After four weeks the pigment can continue to fade up to 70%. This is considered an extremely positive occurrence, as it allows you time to reflect on your new eyebrow shape and colour. After 6-8 weeks a touch-up treatment is performed and at this point any changes you would like to make are discussed. After your touch-up treatment the pigment will once again fade, but to a much lesser degree.

### **Aftercare Instructions**

After-care instructions will be given during your consultation allowing you to look after your new brows and assist with the healing process.

### **Further touch-up treatments**

Feather touch brow tattoo may be a multi-step process. Your treatment includes one complimentary touch-up 6-8 weeks after your initial treatment. Further touch-up is recommended approximately every 12-24 months to keep the tattoo pigment at its best. The longevity of pigment in the skin cannot always be predicted and colour retention varies depending on the individual and client compliance of homecare instructions.
